

## COMMERCIAL FEMALES

BV females have been vaccinated with Vira Shield 6+VL5HB (IBR, BVD I & II, PI3, BRSV, Lepto 5, and Vibrio Fetus) and poured with Cydectin within 30 days of sale date. BV cows 2 years and older as of sale date have been tested negative for Johnes. BV females are tattooed in both ears which corresponds to their tag number. Bred females have been ultrasounded pregnant within 100 days of breeding and palpated pregnant within 30 days of sale date. Bred females are guaranteed pregnant for 30 days after sale. You are welcome to have your vet recheck, if you have an open female you may return her for full refund.

## Calf Purchase Program

We bought over 500 Branch View sired calves the last two years, returning \$40,000 over market average to our bull customers. The commercial heifers are represented in our sale and the steer mates are fed at Pratt Feeders in Kansas. We return the individual carcass data back to our bull customers for use in improving their programs.

Tim Dietrich has joined us as Director of Commercial Relations. Most recently he was the Beef Cattle Marketing Specialist for The Kentucky Department of Agriculture. We are excited to have Tim bring his years of experience

and knowledge to our team and assist in increasing the value of our customers' calves. For more information on how you can maximize the value of your calves, contact Tim at 859-619-0342 or [tim@branchviewangus.com](mailto:tim@branchviewangus.com).
